

Update on AB 617 Community Air Protection Program

January 31, 2018

Motivation for AB 617

- Historical focus on regional air quality
- Significant improvement, but disproportionate burdens remain
- Need for community-level focus
- Address cumulative exposure
- Take advantage of advances in monitoring technologies

Focus on Community Action

- Most significant air quality legislation in decades
- Establishes community focused framework
 - Enhanced information on community level air pollution
 - Community specific emission reduction programs
 - Focus on early actions
 - Emphasis on community participation
 - Builds on existing community level efforts

Joint Implementation of Program Elements

MONITORING

- Identify communities for monitoring
- Statewide Monitoring Plan
- District and community operated networks
- Statewide data display

EMISSIONS

- Statewide reporting system
- Statewide pollution mapping tool

FUNDING

- Incentive funding
- Community assistance grants

ACTION PLANS

- Identify communities for emission reduction programs
- Statewide Strategy
- District Community Emission Reduction Programs
- District BARCT implementation
- State and district strategies

Community Identification

- Prioritize communities with highest exposure burdens
 - Deployment of community air monitoring
 - Development of community emission reduction programs
- Focus on disadvantaged communities and sensitive receptor locations

Statewide Monitoring Plan

By October 2018
with ongoing
updates

- Review capabilities of air monitoring technologies
- Review existing community air monitoring systems
- Provide recommendations for additional air monitoring
- Establish guidance on best practices

Statewide Reduction Strategy

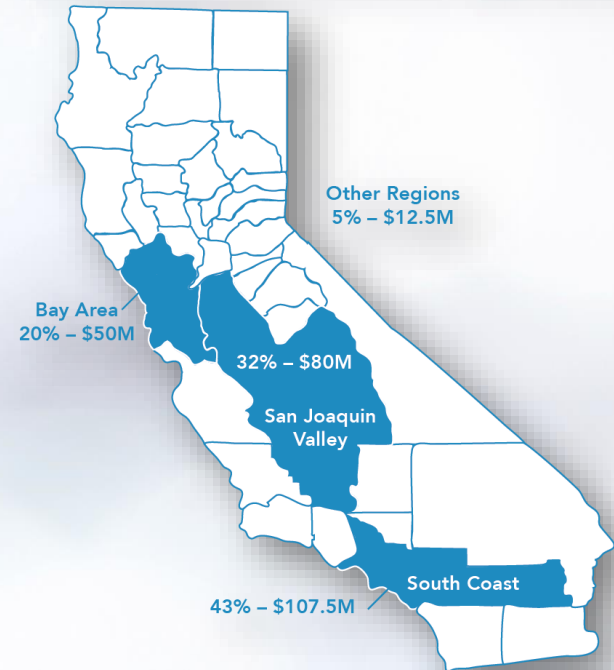

By October 2018
with ongoing
updates

- Methods for assessment of community exposure and contributing sources
- Strategies for reducing emissions
- Criteria for community emissions reduction programs

\$250M for Targeted Incentive Funding to Support Early Actions

- Provides demonstrated commitment to deliver on goals of AB 617
- Focus on communities with highest pollution burdens
- Target mobile sources spending substantial portion of time within communities

CLEAN TECHNOLOGY INCENTIVES – \$250 MILLION

\$5M for Community Assistance Grants

- Developing process for grant program
- Funding to support
 - Capacity building – training and support
 - Assistance for community led air monitoring
 - Technical assistance

Commitment to Ongoing Public Engagement

- Comprehensive and collaborative public process involving all stakeholders
- Ongoing opportunities throughout all stages of program development and implementation
- Multiple forums for technical and policy discussion

Community Air Protection

← BACK TO ALL TOPICS

The goal of AB 617 is to ensure that everyone benefits from our state's air quality efforts, especially those that live in the most severely pollution impacted areas of California. AB617 provides for:

- Community level monitoring
- Statewide strategy to reduce emissions impacting communities
- Community-specific emission reduction plans
- Accelerated retrofit of pollution control equipment at existing facilities near communities
- Direct reporting of emissions to the CARB
- Increased penalties
