MANAGEMENT
DISTRICT

Actions to Reduce Emissions & Exposure

West Oakland Community Action Plan
Steering Committee Meeting
November 7, 2018

Alison Kirk, Senior Environmental Planner
Bay Area Air Quality Management District

Actions:
What?
How?
Who?

What is the source of emissions/exposure?

How does the action achieve reductions?

Who can take the action?

Land Use Decisions

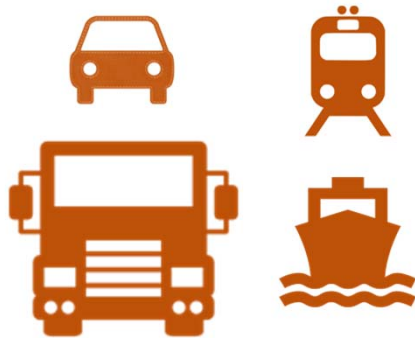

What: Homes, schools, senior centers, parks near emission sources

How: Land-use policies, zoning, truck routes, truck parking, design standards, lease agreements, capital improvements

Who: City of Oakland (Local)
Port of Oakland (Local)

Mobile Sources

What: Cars, trucks, trains, ships, locomotives create emissions

How: Regulations, enforcement, incentives, transportation infrastructure, land use policies, lease agreements

Who: California Air Resources Board (State)
BAAQMD (Regional)
U.S. EPA (Federal)
ACTC, MTC (Regional)
City of Oakland (Local)
Port of Oakland (Local)

Stationary Sources

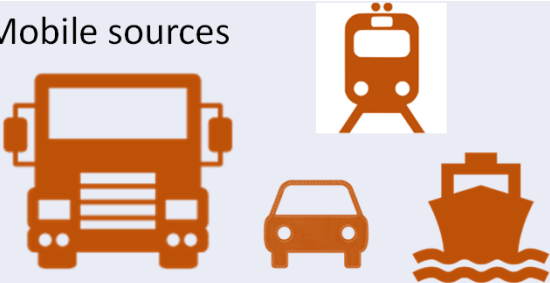

What: Industrial uses, back up generators, water treatment plants, auto body shops, etc. create emissions

How: Regulations, permits, incentives, enforcement

Who: BAAQMD (Regional)
City of Oakland

Actions Summary

What is the source of emissions/exposure?	How can emissions/exposure be reduced?	Who can take action?
<p>Land Use</p> 	<p>Land use policies, zoning, truck routes, truck parking, design standards</p>	<p>City of Oakland (Local) Port of Oakland (Local)</p>
<p>Mobile sources</p> 	<p>Regulations, enforcement, incentives, transportation infrastructure, land-use policies, lease agreements, capital improvements</p>	<p>CARB (State) BAAQMD (Regional) U.S. EPA (Federal) ACTC, MTC (Regional) City of Oakland (Local) Port of Oakland (Local)</p>
<p>Stationary sources</p> 	<p>Regulation, permits, enforcement, new incentive funds are available for stationary sources</p>	<p>BAAQMD (Regional) City of Oakland (Local)</p>
