## Local Government Climate Newsletter

The Bay Area Air Quality Management District

## ***Global Climate Action Summit: Sept 12 - 14***

Governor Jerry Brown will be hosting the Global Climate Action Summit in the Bay Area, from September 12 - 14. The week-long event will convene leaders and climate stakeholders from across the world to celebrate climate successes and catalyze new commitments and action.

There are hundreds of affiliate events scheduled during the week.

### ***Calling on Communities to Commit to 'Diesel-Free by '33'***

The Air District is urging mayors, city and county government officials, and leaders of industry and business from all over the world to commit to cutting diesel use to zero by the end of 2033.

By signing the Statement of Purpose, leaders can join the Air District and the state of California in showcasing our collective leadership by identifying and adopting innovative solutions to eliminate diesel emissions and black carbon from our communities.

from our commitment.

## ***Climate Tech Marketplace, Sept 13: A Global Climate Action Summit Affiliate Event***

On Thursday, Sept 13th from 4 - 7 pm, the Air District will host an expo and networking event to connect climate technologies with potential customers.

The event will showcase emerging climate technologies for the commercial, industrial, and transportation sectors. The Air District invites companies, government agencies, utilities, industrial facilities, fleet managers, and transportation agencies to connect with exciting opportunities to take climate action and spur inclusive economic growth.

## ***Climate Friendly Cuisine Event, Sept 11: A Global Climate Action Summit Affiliate Event***

On Sept 11th, Acterra, with support from the Air District, will be offering a full-day educational conference for food service professionals.

Participants will learn about the importance and profitability of sustainable and climate-friendly food service practices. The focus of the day will be on practical solutions and concrete actions that restaurants, caterers, hospitals, educational institutions, corporate campuses, entertainment venues and other institutions that serve food can take to reduce their carbon footprint. Key topics to be covered are plant-forward meal planning, sustainable sourcing, and minimizing food waste.
